About MM

Consider a group that has done international trade for many years. It solves all commercial and technical problems and works customer-oriented. In this way, they succeeded in gaining everyone's trust. Their names are remembered with respect. Customers working with them feel themselves in a safe trade, they know that they will get what they pay for. They are always open and clear with their customers.

Trust, Partner oriented business management

These individuals solve the most difficult problems and projects that others may not want to deal with, without any problems or with the least fuss. They have high technical capacities and developed problem solving techniques. They themselves can meet the highest quality expectation. The smallest details are the most important to them. They never compromise on quality.

Quality understanding

These features are the key elements of the MM team that enable them to reach more customers. After undertaking international assignments in certain companies, they have now established a company with their own style and ideas. Although he has just started his life, it is a name that has been known for years with its works and collaborations in the international market. It is a dynamic and proud business enterprise.

We offer innovative products and solutions in KNX, DALI and CASAMBI protocols.

Our company offers our partners special services.
